KISHOR KUMAR R

+91 6383537216 | kishorkumar28546@gmail.com | LinkedIn | GitHub

PROFILE SUMMARY

Aspiring Software Engineer, Full Stack Developer, and AI Engineer with a strong foundation in Java, Python, Data Structures and Algorithms (DSA), and Object-Oriented Programming (OOP). Oracle Java certified, with solid knowledge of core Java concepts, problem-solving, and programming fundamentals. Hands-on experience building full-stack applications through two internships. Interested in software development, artificial intelligence, web technologies, and building efficient, scalable applications. Eager to apply technical skills, learn new technologies, and contribute to real-world software engineering projects.

EDUCATION

B.Tech Computer Science & Engineering, Saveetha University, Chennai **2023 – Present (Exp. 2027)**
Expected Graduation: 2027 | CGPA: 8.28/10.0
Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

TECHNICAL SKILLS

Programming Languages: Java, Python, C/C++
Core CS: Data Structures & Algorithms, OOP, Problem Solving
AI / Machine Learning: Machine Learning Fundamentals, Python, Matplotlib
Full Stack Development: HTML, CSS, JavaScript, React, Backend Integration, REST APIs
Databases: MySQL, PostgreSQL, MongoDB
Cloud & Development Tools: Docker, Google Cloud, Git, GitHub
IDEs & Editors: VS Code
Soft Skills: Communication, Teamwork, Analytical Thinking

INTERNSHIPS / EXPERIENCE

Full Stack Development Intern — NLC India Limited | Aug 2025 – Sep 2025
- Worked on developing and maintaining web applications.
- Gained hands-on experience in backend integration and real-world project development.

Full Stack Development Intern — Duhzine IT Solution | Oct 2025 – Dec 2025
- Contributed to full-stack application development.
- Improved UI components and worked with databases for data management.

PROJECTS

Mini Database Engine | Indexed Data Storage Using B+ Tree and Hash Indexing
Built a mini database engine with a B+ tree index for range queries and a hash index for equality lookups, plus a command parser and query planner that automatically selects the fastest access strategy.
- Technologies Used: Python, B+ Tree, Hash Table, Pytest, Matplotlib, Graphviz, Git.
- GitHub: github.com/Kishor-1825/mini-database-engine

File Integrity Monitoring System | Detecting Unauthorized File Modifications Using SHA-256
Built a file integrity monitoring system using SHA-256 cryptographic hashing to detect modified, deleted, and newly added files through hash comparison.
- Technologies Used: Java, SHA-256, File I/O, JDBC, MySQL.

CERTIFICATIONS

- Oracle Java Certification
- Oracle DBMS Certification
- Cybernaut Full Stack Development Certification
